Kinective Sign™

The most comprehensive eSignature experience in banking.

Sign is the easy-to-use cloud-based eSignature experience that gives your clients a frictionless way to receive and electronically sign documents from anywhere, at any time.

Our enterprise-level eSignature platform eliminates the need for manual signature field placement and tagging, minimizing employee error, and seamlessly streamlining the setup process in real-time.

What makes Sign better?

Works with any business system.

Frictionless experience with virtually any business system to initiate the eSignature transaction.

→

Built- in templates.

eDocuments are automatically setup for processing. No employee setup required.

→

The only 'Blended Session' solution.

Provide clients with simplicity and convenience from anywhere. Multiple signing parties can complete in the method they prefer.

→

Automatic archival (literally and figuratively).

Because it is embedded in the Sign solution, you'll enjoy seamless archiving with any imaging system, without any human intervention or added costs.

Benefits of our cloud-based eSignature solution

- Timely updates and upgrade of eSign products
- Faster delivery of new product features
- Quicker turnaround for issues reported
- Reduces costs associated with maintaining an on-premise server

- Savings on Operating System maintenance fees
- Reduces ongoing administrative management of servers
- Automated backup and recovery
- Disaster recovery

Pre & post signing management

Rules-based transaction management

Enables digital end-to-end document lifecycles

Reduces risk of human error

Eliminates risk of incomplete or inaccurate signings

Secure and compliant with ESIGN act

Enhanced auditing & reporting services

"Our previous provider was not able to effectively integrate with our current systems and did not truly understand the nuances of how the bank operates. The overall value of the system was languishing.

We conducted a rigorous review process, and Kinective's eSign solution met every established requirement and continues to exceed our expectations."

United Bank of Michigan
(Fiserv Premier, Fiserv BPM, Fiserv Director)
